

READING COMPREHENSION

INSTRUCTION: READ THE TEXT ABOUT TRACING A FAMILY TREE. CHECK TRUE OR FALSE FOR EACH STATEMENT.

TRACE YOUR FAMILY TREE

- What is Network Family?
Network family is a powerful genalogy database that is shared and developed by ordinary people like you all around the world.
- How does Network Family work?
Once you have entered as much detail as possible about your ancestors, we begin looking for them. As soon as our search process starts, it doesn't stop until you find who you are looking for.
- Why should I use the Network Family database?
The answer is simple. A genealogist can only look for one ancestor at a time. Our database can look for information about a lot of your relatives and ancestors at the same time.
- How will I know if you have found any of my ancestors?
Easy. We will notify you by e-mail
- How much will it cost?
\$40 for every month you are with us. You won't find a better price.
