How wolves change rivers.

Watch the video:

Choose the most appropriate modal to complete the following statements. Use each modal only once in passive voice.

must not   couldn't   can

should   might   could

Wolves _____.(protect)

Grazing animals _____

(control) without predators.

Other species _____

(affect) by overgrazing.

The ecosystem _____

(improve) by reintroducing wolves into the wild.

Predators _____.(kill)

Rivers _____ (change) by wolves.

Rewrite the pairs of sentences using the paired conjunction in parentheses with or, nor, but...also.

The ecosystem was affected. Rivers were also affected by the return of wolves to Yellowstone. (not only)

_____

Grazing animals need to be controlled; they could be controlled by predators. They could be controlled by sterilization. (either)

_____

Predators shouldn't be killed. They shouldn't be hunted. (neither)

_____
