6 ☐ She has to save her Pellet rations

A empty desert.

B for the journey.

C by workers in the city.

D earn them at work.

E cross the desert and find water.

F situations in the past.

G ask rich people for extra rations.

H by the Keepers in factories.

Grammar: **The second conditional**

If she didn't come back, he would die.

There are different ways to express a hypothetical situation in the present or future. Hypothetical situations are situations we are imagining. We use the **second conditional** to describe them.

Its structure is:

If + past simple, would + infinitive

Note:

- The past simple is used here to show that something is imaginary, NOT that it is in the past.
- 'if' and 'would' cannot go in the same part of the sentence. Think of the comma (,) as the dividing line between the two parts of the sentence.

The second conditional

Complete the sentences with these ideas

1 eat sweets everyday / be unhealthy

If I _____ every day , I _____.

2 have no friends / be unhappy

If I _____, I _____.

3 see an alien / be afraid

If I _____, I _____

4 find money on the street / keep it

If I _____ on the street , I _____ it.
