What will life be like in 200 years' time?

In 200 years' time, there will be lots of buildings and people on Earth. The land will be very crowded, so I think people will build huge cities underwater (a). People will live in amazing underwater houses with glass walls (b). When we look out of our bedrooms or living rooms, we will see amazing fish and sea animals. There will be underwater playgrounds for us to swim in. I think we will travel in submarines to go to underwater shops and supermarkets (c). The submarines will turn into motorboats to take us to the land. There will be special equipment to help people breathe and walk underwater (d). Food will be different, too. I think people will eat lots of fresh fish and seafood, because it will be easy to catch fish underwater (e). We will have special swimming robots to do our shopping and our housework for us (f). Living underwater will be strange, but I think it will be lots of fun.
