Going To The Hairdresser

Draw a line from the equipment to the correct paragraph in the text.

I'm going to be a bridesmaid at my cousin's wedding today. So I need to get my hair done.

First the hairdresser washes my hair with shampoo. It feels nice when she rinses my hair with warm water.

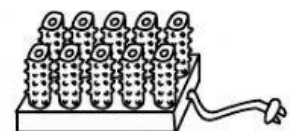

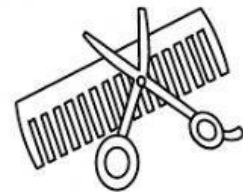

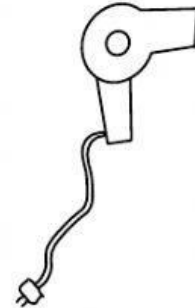

Next it's time for a trim. The hairdresser only cuts off a little bit.

Now it's time to dry my hair with the hairdryer.

My cousin wants my hair to be curly for the wedding so the hairdresser uses hot rollers. She wraps pieces of hair around the hot rollers and clips them in place. The rollers stay in my hair until they cool down then it's time to take them out.

Now it's time to style my hair. The hairdresser uses pins to hold the hair in place. I wonder what I will look like!

My hair looks beautiful. What a wonderful day!
