Problems of modern education

Pre-watching

What do you consider as the main problems of modern education?

While-watching

1. Who is our modern school focused on?

2. What is one of the most important skills in our modern life?

3. What is school learning based on?

4. What do you have to find to be happy?

5. What feature is taken into consideration to measure your progress?

Post-watching

Which of these points do you agree with?

What can be done in order to improve the situation?
