

## Ο ΠΟΛΛΑΠΛΑΣΙΑΣΜΟΣ ΣΤΟΥΣ ΔΕΚΑΔΙΚΟΥΣ ΑΡΙΘΜΟΥΣ

### Η ΠΡΑΞΗ ΤΟΥ ΠΟΛΛΑΠΛΑΣΙΑΣΜΟΥ

Πολλαπλασιάζω τους αριθμούς σαν να είναι ακέραιοι. Όταν η πράξη τελειώσει μετρώ τα δεκαδικά ψηφία και των δύο παραχόντων και χωρίζω ισάριθμα δεκαδικά ψηφία από τα δεξιά του γινομένου.

Γράφω κάθετα και λύνω:

| 13,59 X 1,2                                                                                                                                                                                                                                                                                                                                 | 36,87 X 62,8 |    |   |   |  |   |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                             |   |    |   |   |  |   |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
