

## OPERACIONES COMBINADAS

1. Resuelve las siguientes operaciones combinadas:

a)  $20 + 5 - 4$

Diagram showing the order of operations: first  $20 + 5$  in a box, then  $(20 + 5) - 4$  in a circle and a box, resulting in a final box.

b)  $54 - 5 + 10$

Diagram showing the order of operations: first  $54 - 5$  in a box, then  $(54 - 5) + 10$  in a circle and a box, resulting in a final box.

c)  $77 + 6 - 10$

Diagram showing the order of operations: first  $77 + 6$  in a box, then  $(77 + 6) - 10$  in a circle and a box, resulting in a final box.

d)  $48 - 3 + 10$

Diagram showing the order of operations: first  $48 - 3$  in a box, then  $(48 - 3) + 10$  in a circle and a box, resulting in a final box.

e)  $68 - 8 + 8$

Diagram showing the order of operations: first  $68 - 8$  in a box, then  $(68 - 8) + 8$  in a circle and a box, resulting in a final box.

f)  $15 - 5 + 50$

Diagram showing the order of operations: first  $15 - 5$  in a box, then  $(15 - 5) + 50$  in a circle and a box, resulting in a final box.
