

Grade 2 Module 1 Lessons 1-4

Created By Kathleen Walke

1 Solve each sum or difference and match the correct answer.

$19 + 3$		
$5 + 11$		
$15 - 4$		
$3 - 1$		

DRAG & DROP THE ANSWER

- 9
- 2
- 16
- 11
- 22

2 Enter the number that makes the sum true.

$$6 + \boxed{} = 9$$

3 Solve the subtraction problem.

$$9 - 5$$

A 4

B 6

C 5

D 3

4 Find the number that makes the sum on the left side of the equation the same as the sum on the right side of the equation.

$$44 + 5 = \boxed{} + 3$$

5 Select all of the following that are the same as 12.

A $7 + 5$

B $14 - 3$

C $8 + 4$

D $16 - 4$
