However, it is this notion of a (2) _____ community which is often a striking difference between city and country life. Knowing everyone near where you live and having (3) _____ respect for your neighbours in a small community does, in effect, (4) _____. If someone needs help or is ill, they will find themselves in a (5) _____ position where they feel well supported. You could say that (6) _____ is a fundamental aspect of survival in such places. Villagers tend to (7) _____ keeping their communities thriving through (8) _____ with each other, maintaining social clubs and events, and keeping the local amenities running. If you visit any English village, you come across an eclectic mix of characters. Whilst you can expect some rather (9) _____ landowners to be influential in village parish matters, you will also get to talk to people from all (10) _____ of life. Living in a village might not be everyone's cup of tea but one thing's for sure, there is a lot to be said for it.
