## TRUE OR FALSE?

Look at the equations and decide if they are balanced or not. If the equation is balanced, circle T for True. If it is not balance, circle F for false.

$2 + 4 = 5 + 1 \quad \text{T F}$

$10 - 0 = 6 + 4 \quad \text{T F}$

$3 + 9 = 4 + 11 \quad \text{T F}$

$14 - 4 = 16 - 7 \quad \text{T F}$

$5 + 5 = 2 + 9 \quad \text{T F}$

$12 + 6 = 18 - 1 \quad \text{T F}$

$10 + 4 = 7 + 7 \quad \text{T F}$

$1 + 1 + 1 = 2 + 2 \quad \text{T F}$

$9 - 6 = 7 - 5 \quad \text{T F}$

$10 - 3 = 2 + 6 \quad \text{T F}$

$8 - 5 = 4 + 2 \quad \text{T F}$

$7 + 2 = 10 - 1 \quad \text{T F}$

$11 - 9 = 3 + 0 \quad \text{T F}$

$6 + 6 = 12 - 3 \quad \text{T F}$

$12 - 5 = 6 + 0 \quad \text{T F}$

$3 + 3 + 1 = 9 - 1 \quad \text{T F}$

$8 + 2 = 15 - 5 \quad \text{T F}$

$12 + 5 = 20 - 2 \quad \text{T F}$

$9 - 2 = 5 + 3 \quad \text{T F}$

$19 - 5 = 7 + 7 \quad \text{T F}$
