

BREAKiNG ME

me what you wanna
I'll be what you wanna
I've been there a thousand (eh, eh)

Falling for another
I don't even bother
I could do it all my

So tell me if you
'Cause I got this feeling
I wanna hear you say it
'Cause I can't it
With every touch of you
It's like I've started
Guess Heaven's not that far away.

And I'll be (la la la la la la la)
You're me (la la la la la la la)

I'm just right here around to the rhythm
The rhythm that you play when you're breaking my
You know that I can't get you out of my system
Yeah, right from the
You played with my heart

You can do whatever
I'll be here
Spinning round inside this room (eh eh)
Won't you come on over
I'm a sucker for you
Wishing we'll be out here

So tell me if you
'Cause I got this feeling
I wanna hear you say it
'Cause I can't it
With every touch of you
It's like I've started
Guess Heaven's not that far away.

And I'll be (la la la la la la la)
You're me (la la la la la la la)

I'm just right here around to the rhythm
The rhythm that you play when you're breaking my
You know that I can't get you out of my system
Yeah, right from the
You played with my heart
