Reading

1) Read the following text and choose the right answer.

Joe's plans

I am going to study hard and take my exams in Physics, Maths and Chemistry in two years. I want really good grades. And when I leave school, I'm going to go to university to study Science and Engineering. When I'm 17, I also want to learn to fly a small plane! I love planes. I love flying and I love reading about the history of space exploration.

In fact, I really want to be an astronaut one day! I hope it's possible. So, after university, I'm going to apply for pilot training with an airline. It won't be easy, so I'm going to get a part-time job and save up some money before I go to university. I won't have time for any holidays! In the future, I want to live near a big airport and fly planes.

The best pilots have the chance to do astronaut training, so I'm going to work very hard. I'm also going to go to the gym a lot. Pilots and astronauts need to be very fit and healthy. I'm not going to get married when I'm young. I'll be too busy!
