## How to Save a Life

**You are going to listen to *How to Save a Life*, by *The Fray*.  
Can you guess the correct order of the lines in the verses?  
Remember that the final words of the lines are in rhyming pairs.**

### Verse 1

### Verse 2

### Verse 1

Step one you say "we need to talk"  
You stare politely right on through  
And you begin to wonder why you came  
He smiles politely back at you  
As he goes left and you stay right  
He walks, you say "sit down, it's just a talk"  
Some sort of window to your right  
Between the lines of fear and blame

### Verse 2

Let him know that you know best  
Without granting innocence  
And pray to God he hears you  
And then pray to God he hears you  
Lay down a list of what is wrong  
Try to slip past his defence  
Cause after all you do know best  
The things you've told him all along

### Verse 3

### Verse 3

As he begins to raise his voice

Or he'll say he's just not the same

Drive until you lose the road

And you'll begin to wonder why you came

Or break with the ones you've followed

You lower yours and grant him one last choice

He will do one of two things

He will admit to everything

**Now listen to the song to see if you were correct.  
Also try to complete the chorus of the song.  
It uses a sentence in an *inverted third conditional*.**
