electricity

Many cities are looking for ways to be environmentally 1 _____. Chicago, for example, decided to plant gardens on 2 _____ around the city. This helped to 3 _____ heat and pollution in the city. Copenhagen is another 'green city' where locals avoid 4 _____-hour traffic by 5 _____ or using the underground. They also 6 _____ lots of 'green' electricity from the wind in Copenhagen. Vancouver, in the southwest of Canada, is also very green and gets a lot of its 7 _____ from water systems. They have also got special 8 _____ to shrink the rubbish - in other words, to make it smaller. Fortunately, these kinds of ideas are becoming popular all over the world!
