

THE TIME

DIGITAL CLOCKS

Another way to read the time: we can read number by number when we look at a digital clock. For example: **4: 15** *It's four fifteen*

12: 45 *It's twelve forty-five*

First, we read the hour and then the minutes.

- Can you write these times?

2: 27

10:35

3:09

11:44

1:12

6:55
