Disneyland Paris

Disneyland is a spectacular place, with its magical castle and fantastic parades. You can see all the popular film characters; even adults enjoy taking a selfie with their childhood favourites! With all the crazy developments that have happened in 2020, how can people visit safely and still have fun?

Before you go, you need to book your tickets for Disneyland and pay online, you can't just go. Then, when you arrive you do not have to queue and wait. Someone will **take your temperature** and you have to answer some questions about how you feel and your **general health** before you enter the attraction park.

When you are there, you will see people cleaning all the time. It is a safety precaution, and you can help them by **wearing your mask** and cleaning your hands at the **sanitizing stations** regularly. It's possible you might have to wait a little longer to use transport like the train or bus in the park because they mustn't be 'full capacity', but this is to help with **social distancing** and prevent you **catching the virus** while you are having fun!
