Michelangelo Buonarotti is considered one of the greatest artists of the Renaissance. He is looked at as an equal counterpart to Leonardo da Vinci and Rafael. He was a true Renaissance man; a poet, an artist, a sculptor and an architect.

Michelangelo was born in a banking family just outside of Florence. When he was very young, his mother died, and his father sent him to live with a stone cutter's family.

Michelangelo always wanted to be an artist and he hated school. After studying for two years, Michelangelo discovered his true passion — sculpture. His father unwillingly sent him to the school for sculptors founded by the great Lorenzo de Medici. Lorenzo was a great patron of the arts and saw Michelangelo's talent early.

To enhance his knowledge of the human body, Michelangelo visited the monastery of San Spirito to examine the dead. At night he would dissect the corpses in secret. By knowing what the body looked like under the skin, and how the muscles work, he was able to create life-like drawings.
