

Repaso: Los artículos indefinidos

Remember that just as with the definite articles ("the") in Spanish, there are four indefinite articles. Their translation is "a" or "an" for the singular and "some" for the plural forms. They will also need to match the number and gender of the noun, just like with indefinite articles and most adjectives.

Study this list of nouns and fill in the blank with the proper indefinite pronoun.

1. _____ familia

2. _____ madre

3. _____ esposos
