**Label the process of photosynthesis.**

carbon dioxide  energy and light from the Sun  water and minerals

**Circle the correct answers about plant nutrition.**

**a.** How do plants get their energy? (They make their own food) / They eat other plants

**b.** What do we call this process? Fertilisation / Photosynthesis / Pollination

**c.** What do plants absorb from the air? Oxygen / Carbon dioxide / Minerals

**d.** What else do plants need for this process? Sunlight / Darkness / Moisture

**e.** What do plants release into the air? Oxygen / Carbon dioxide / Water

expulsar

**Complete the equation for photosynthesis.**

water + minerals + _____ + sunlight = food + _____
