All these songs later were posted on MySpace.com and became very popular. As a result, she was offered a record deal from XL Recordings after her graduation. Her first album "19" debuted at number one on the British charts in 2008.

In March 2008, she did a short tour in America and soon her international career began. In 2011, her second album, "21", **came out**. The music on this album was different from the soul music of "19". It was influenced by American country music, which Adele was listening
