My house

Our house is in the busy capital of our country. Some people say it is not a good place to live, but we are very lucky to have a home in the _____, far away from the noise of the city centre. Actually, it's a nice, quiet _____ with friendly families and many children. Although we have to drive half an hour to get to work, it is still much better than living in a polluted downtown _____ with its heavy traffic and unfriendly neighbours.

Here we can live in a _____ house which has a garden and nice green _____ around it. We can also grow our own vegetables in a big _____ at the back. The postman always smiles at us as he drops the mail in the _____. Even our _____ says 'Welcome' to our visitors. It's just wonderful! We can also have more rooms in such a big house; for example a _____ where all the family can have lunch and dinner together and just chat. And the best part is, that every evening, when I'm closing my _____, I don't see rushing taxies and tall building-blocks, but a peaceful, quiet street with many sleeping houses.
