

Equivalent Ratios Homework Handout

Name: _____ Due: September 22, 2020

Directions: Fill in the blank to make an equivalent ratio. You will need to multiply or divide both numbers of the ratio by the same number.

EXAMPLE $4:7 = \underline{\hspace{2cm}}:14$ MULTIPLY BOTH NUMBERS BY 2 **Answer** = $4:7 = \underline{\hspace{2cm}}:14$

1) $2:3 = 4: \underline{\hspace{2cm}}$

2) $12:10 = \underline{\hspace{2cm}}:5$

3) $4:5 = 12: \underline{\hspace{2cm}}$

4) $6:7 = \underline{\hspace{2cm}}:28$

5) $8:4 = 4: \underline{\hspace{2cm}}$
