Task: We are going to read a paragraph about who we see at school (or at home on an online classroom). We will learn about four people we see at school (not scored- also, may substitute pictures to make it more relevant to your students)

### Who is at school?

There are many people who work in a school. Our teacher is the person that we see most of the day, along with our paras. Our teacher teaches us, and our paras help us learn as well. The person in charge of the whole school is called the principal. The principal of our school is Dr. Dailey. She makes sure all the teachers teach and that the students are safe. Sometimes we see the custodians. The custodians help keep the school clean.

**Teacher**

**Principal**

**Para**

**Custodian**
