Is it a good idea to study independently?

1 This is a question students and teachers often discuss.

2 Some people think that it is excellent because all learners are different and need to learn in their own way, at their own pace.

3 However, other people say that it is good to work with, and learn from, other students in a class.

4 Clearly, there are arguments on both sides. However, in my opinion it is possible to do both, so sometimes we can study in class, but at other times we can study independently online.
