

Numerele naturale 0-100. Corpul omenesc (recapitulare)

1. **Citește cu voce tare denumirile organelor interne.**

2. **Ordonează crescător numerele din cercuri:**

____, ____ , ____ , ____ , ____ .

3. **Ordonează descrescător numerele din pătratele portocalii:**

____, ____ , ____ , ____ , ____ .

4. **Scrie crescător toate numerele pare de pe imagine:**

____, ____ , ____ , ____ , ____ .

5. **Scrie descrescător toate numerele impare de pe imagine:**

____, ____ , ____ , ____ , ____ .

6. **Descompune numerele din pătrate (vezi modelul):**

7. Compară numerele ($>$, $<$, $=$) :

76 27 14 40 85 76 27 40 14 14

8. Calculează, folosind numerele de la organele interne (observă modelul):

Diagram illustrating the addition of heart and liver weights: $62 + 38 = 100$.

A diagram illustrating the concept of the gut-brain connection. It features a 3D model of a human stomach on the left, followed by a plus sign, a 3D model of a human brain on the right, and an equals sign.

A diagram illustrating the concept of subtraction using organs. On the left is a detailed anatomical illustration of a human heart. To its right is a minus sign (-). Further right is a detailed anatomical illustration of a human stomach. To the right of the stomach is an equals sign (=). This visualizes the equation: Heart - Stomach = Liver.

A diagram of a liver and a photograph of a brain are shown side-by-side. The liver is on the left, and the brain is on the right. They are separated by a vertical line. To the right of the brain is a double equals sign (=).

9. Completează axa numerelor:
