

MY FUTURE CAREER

Two classmates are discussing their future careers:

Richard: My mother is an accountant for a large company.

Mona: My mother works part time as a nurse and my father is a plumber who has his own company.

Richard: My father works as a store manager but he will retire in two years. My uncle will take his place as he is younger and the job provides a good salary. My mother will continue working for some time yet as she really enjoys her work.

Mona: After high school I'll train to be a nurse like my mother. She always tells me how much she enjoys her job. I will also have a lot of flexibility as a nurse. I will be able to work in many different countries.

Richard: That's important, since unemployment can always be a problem.

Mona: And you and your brother Paul?

Richard: I will be a firefighter because I like to help people and it is an interesting job. Paul is more interested in finance and will work for a bank as a stockbroker.

Mona: My sister is very creative and wants to be an artist. She draws very well, so she will work with my aunt in advertising.

A. True or false?

1. Richard's mother is an accountant.	T	F
2. Richard's father does not work.	T	F
3. Mona's mother is a manager.	T	F
4. Paul is interested in working in a bank.	T	F
5. Mona will be a nurse.	T	F
6. Richard will be a firefighter.	T	F
7. Mona's sister is not creative	T	F
8. Richard has a brother.	T	F
