## MY FUTURE CAREER

## Two classmates are discussing their future careers:

Richard: My mother is an accountant for a large company.

Mona: My mother works part time as a nurse and my father is a plumber who has his own company.

Richard: My father works as a store manager but

he will retire in two years. My uncle will take his place as he is younger and the job provides a good salary. My mother will continue working for some time yet as she really enjoys her work.

Mona: After high school I'll train to be a nurse like my mother. She always tells me how much she enjoys her job. I will also have a lot of flexibility as a nurse. I will be able to work in many different countries.

Richard: That's important, since unemployment can always be a problem.

Mona: And you and your brother Paul?

Richard: I will be a firefighter because I like to help people and it is an interesting job. Paul is more interested in finance and will work for a bank as a stockbroker.

Mona: My sister is very creative and wants to be an artist. She draws very well, so she will work with my aunt in advertising.

## A. True or false?

1. Richard's mother is an accountant.	T	F
2. Richard's father does not work.	T	F
3. Mona's mother is a manager.	T	F
4. Paul is interested in working in a bank.	T	F
