The Eiffel Tower

The Eiffel Tower is the symbol of Paris! Let's take a look at this unique tower ...

A The Eiffel is 324 metres tall. It's a strong steel tower with 3 floors.

From the ground to the third floor there are 1,665 stairs.

B Visitors can start their tour on the first floor at the "Cineiffel". Here, they can watch short films about the history of the tower and see unique old photos of the tower and the city of Paris.

C On the first floor there is also the Gustave Eiffel room. This is a large, elegant room. It has got 250 red chairs and a big balcony. This room is for special events, like award ceremonies and birthdays.

D Next, visitors can go up to the second floor. This floor is 115 metres high. This is the floor for food! Visitors can eat a sandwich in a café. Or, for some real French food, they can go to the expensive Jules Verne restaurant!

E For shopping, visitors can go to the second floor. It has got three shops. They can buy souvenir items, like cups, T-shirts and small models of the Eiffel Tower, for their friends and family.

F Then it's up to the third floor, the top of the tower. Here, at 276 metres high, the view of the city is wonderful. It's a great place for photos!

G On the top floor, visitors can also visit the office of Gustave Eiffel, the creator and the man behind the tower! Inside the office they can see a wax model of Gustave and his old office furniture.

H Finally, visitors can go to the Eiffel Tower post office on the ground floor. They can send their friends and family a postcard with a picture of the Eiffel Tower. They can say hi from Paris in style!
