

Определение синуса и косинуса произвольного угла

$$\sin \frac{\pi}{2} =$$

$$\cos \frac{\pi}{2} =$$

$$\sin \pi =$$

$$\cos \pi =$$

$$\sin 0 =$$

$$\cos 0 =$$

$$\sin 2\pi =$$

$$\cos 2\pi =$$

$$P_{\pi} \quad P_{\frac{3\pi}{2}} \quad P_{\frac{\pi}{2}} \quad P_{2\pi}$$

$$\frac{3\pi}{2} \quad \frac{\pi}{2} \quad 2\pi \quad \pi$$

$$\sin \frac{3\pi}{2} =$$

$$\cos \frac{3\pi}{2} =$$

$$\leq \sin \alpha \leq$$

$$\leq \cos \alpha \leq$$
