# Saving the Aral Sea

Lakes and seas are disappearing around the world, partly as a result of climate change, but mainly because of human activity. Less than seventy years ago, the Aral Sea was one of the biggest lakes on Earth. It had an area of about 68,000 km<sup>2</sup>. Then in the 1960s, people built canals to <sup>1</sup> \_\_\_\_\_ cotton fields in Uzbekistan and Turkmenistan. They used **a large amount of** water from the Syr Darya and the Amu Darya, the two big rivers which flow into the lake. As **both** rivers got smaller, the Aral Sea started to <sup>2</sup> \_\_\_\_\_, too. By 1997, it was only 30,000 km<sup>2</sup> – less than **half** its original size. Some areas completely dried up and the lake <sup>3</sup> \_\_\_\_\_ into **several** parts. The biggest are the North Aral Sea in Kazakhstan and the South Aral Sea which crosses both Kazakhstan and Uzbekistan.

Today, the South Aral Sea is still shrinking, but there is hope for the North Aral Sea. In 2003, the Kazakh government

and the World Bank started working on a project to <sup>4</sup> \_\_\_\_\_ the northern part of the lake. The first step was to build the Kok-Aral Dam between the northern and southern parts of the lake. The dam was completed in 2005. Additional structures built on or around the Syr Darya allow more water from the river to <sup>5</sup> \_\_\_\_\_ into the lake.

The project was very successful and the North Aral Sea is slowly coming back to life. Water levels have begun to <sup>6</sup> \_\_\_\_\_ in recent years. When the lake shrank, it became very salty and **all** the 24 freshwater fish species disappeared, but now **a small number of** species are back. Fishermen are hoping that one day there will be **plenty of** fish in the water again.

**2. Read and listen to the text. Write true or false.**

- 1 The Aral Sea was the largest lake in the world.
- 2 The North Aral sea is in Uzbekistan.
- 3 The Kok-Aral Dam separates the North and South Aral Seas.
- 4 Today, there are no fish in the North Aral Sea.
- 5 Local people think it is possible to save the lake.

**3. Choose the correct words.**

- 1 There is a large \_\_\_\_\_ of rubbish on this beach.
- 2 It's only two o'clock. We've got \_\_\_\_\_ of time.
- 3 \_\_\_\_\_ my parents are scientists.
- 4 There are \_\_\_\_\_ small lakes in this area.
- 5 I haven't got any money. I sent \_\_\_\_\_ of it.
