

There's too much love - Belle and Sebastian.

I could **hang about** | **hang around** and burn my fingers
I've been **taking out** | **hanging out** here waiting for something to start
You think I'm faultless to a 't'
My manner set impeccably
But underneath I am the same as you

I could dance all night like I'm a soul boy
But I know I'd rather _____ myself _____ the dance floor
I **be like** | **feel like** dancing on my own
Where no one knows me, and where i
Can't cause offence just by the way I look

And when I come to blows
When I am numbering my foes
Just hope that you are on my side my dear

But it's best to finish as it started
With my face head down just staring at the brown formica
It's safer not to _____
I can't hide my feelings from you now
There's too much love to _____ these days

You say I've got another face
That's not a fault of mine these days
I'm honest, brutal and afraid of you
