

NATURAL: VIDEO 3: HOW YOUR HEART WORKS? THE DR. BINOC SHOW

Name:

1	The heart is a muscle located...	
A	On the middle-left side of your chest	
B	On the right side of your chest	
C	on the middle of your chest	
2	The heart's function is to...	
A	Pumps blood to the lungs	
B	provides oxygen to the body	
C	Pumps blood through the circulatory system providing blood rich in oxygen	
3	The Heart has 4 chambers...	
A	The upper chambers: the right and left ventricle and the lower chambers: the right and left atrium	
B	The upper chambers: the right and left atrium and the lower chambers: the right and left ventricle	
C	The heart doesn't have 4 chambers	
4	Where does everything start?	
A	In the left atrium where the deoxygenated blood enters the heart	
B	In the right atrium where the oxygenated blood enters the heart	
C	In the right atrium where the deoxygenated blood enters the heart	
5	After this, the blood goes...	
A	To the right ventricle where the blood picks up oxygen	
B	To the left ventricle where the blood picks up oxygen	
C	To the lungs where the blood picks up oxygen	
6	Where does the oxygenated blood go after the lungs?	
A	to the right atrium	
B	To the left atrium	
C	To the left ventricle	
7	The blood passes from the left atrium to the ...	
A	Left ventricle and it pumps the blood to the rest of the body	
B	Right ventricle	
C	Left ventricle and it pumps the blood to the lungs	
8	How many times does your heart beat approximately n a minute?	
A	100.000 times a minute	
B	35.000.000 times a minute	
C	70-72 times a minute
