## AGATHA CHRISTIE – HER LIFE AND WORK

### GROWING UP

Agatha Christie was born in 1890 to a rich family in the south west of England. She spent a lot of her early childhood alone, with few friends, because her mother decided to teach her at home. She was interested in books, and loved reading, and started writing at an early age.

### EARLY DAYS AS A WRITER

She married her first husband in 1914. A publishing company published her first novel featuring the famous Belgian detective, Hercule Poirot, in 1919. He appeared in 33 of her novels and in 54 short stories but she never liked him!

### FOREIGN ADVENTURES

After her divorce in 1926, Agatha Christie married an archaeologist and she developed a great interest in archaeology. She and her husband travelled together to many exotic countries and she set a lot of her most successful murder mysteries in those places.

### WELL-LOVED CHARACTERS

Agatha Christie's other famous detective, after Hercule Poirot, was Miss Jane Marple. Poirot appeared in more novels than Miss Marple, but Christie much preferred Miss Marple as a character. She used her grandmother as the model for Miss Marple!

### RECORD-BREAKING STATISTICS

Agatha Christie, the 'queen of crime', died in 1976 at the age of 85. She is the best-selling novelist of all time: her 66 detective novels and 14 short story collections are available in more than 100 languages; and sales of her books are approximately 4 billion copies. Her famous play *The Mousetrap* opened in London in 1952 and it was still on in 2015 – an unbelievable 63 years later! No play has ever achieved that before!

### Are the sentences True (T) or False (F)?

### 2. READ THE ARTICLE AND PUT THE EVENTS IN THE CORRECT ORDER.

## A plane CRASH?

In March 2014, islanders on Gran Canaria were looking at the sea when they saw a big yellow object. It was long, with a yellow tail and it was in the water near the coast. They called the emergency services – the police, ambulances and the coast guard.

The emergency services told the newspapers that a plane was in the Atlantic Ocean about one kilometre from the coast of Gran Canaria.

At about 3 pm, the BBC and other TV channels around the world began to report that a Boeing 737 crashed into the sea. Workers in the control tower at the airport in Gran Canaria confirmed the reports: 'We are missing a plane!' one airport worker said. Another plane that was flying over the area also saw the plane in the water.

A helicopter and a boat went out to sea to rescue the passengers but when they arrived, they found nothing. There was only a large tugboat – a boat that pulls other boats across the sea.

Finally, the emergency services confirmed the false alarm. It was not a plane – just a boat that looked a bit like a plane. Nobody knows what happened to the 'missing plane' from the airport!
