*II. Read the text and decide if the statements are correct or not. Choose **True** or **False**.*

There are some good thing about living in a village in the country. It's quieter than the city. Also, it's more beautiful and it's cleaner because there aren't many cars and buses. However, there are a lot of bad things about living in the country. It's more boring than living in the city. Cinemas, cafes and swimming pools are a long way from your home. Also, it's more difficult to go shopping in the country because there aren't many shops. But the worst thing about living in the country is that it's more difficult to find friends there. It's easier to find friends in a city because there are more kids the same age as you.
