The Cell as a School

A cell is like our school. Each part of the cell (and school) has responsibilities that must be done and certain organelles (People or places) to do them. Identify the function of the following parts of the cell. Then, identify which person does the same job (or a place like it) in the school.

The first one is completed for you as an example to follow.

Cell Part	Function	Part of our school that has a similar function
Cell Membrane	Controls what goes in and out of the cell	Front office
