10

List the field of study and related fields.

Assess journal metrics.

Look at the table of contents for the journal's last several issues.

List all the journal characteristics and competitive factors related to those fields.

Draft a cover letter to Journal 1.

Rank your selections in your preferred order.

Head to the journal website to check Aims & Scope

Consider posting a pre-print.

Find Journals related to those fields.

Review the author guidelines.
