5. _____

What does the word courage mean?

American Stories

George Washington

You probably know that George Washington was our first president. When he was young, he had a different job. He measured land and drew maps. George measured carefully so his maps would be correct. He knew people needed maps to help them find their way around our new country. When you do your work at school, do you think and work carefully? If you do, then you are like George Washington!
