

Look at the main stages of an animal's life. Place them into the correct order.

Death	birth	growth	reproduce
-------	-------	--------	-----------

CORRECT ORDER:

1.	2.	3.	4.
----	----	----	----

Look at the pictures. Place them next to the correct description for each reproduction method.

An egg cell and a sperm cell come together to make a baby	
A baby grows on the body of the adult	
A piece breaks off from the adult. A baby forms from there.
