

## **UNIT 2: Food fun!**

A man is walking down the road, suddenly he trips and his beans fall down the well. A genie appears and gives him a magic pot. It can make any food you want. One day, a hungry old woman steals the magic pot because she's hungry. The next morning, the man goes back to the well. The genie gives him a different pot. It can find the thief. The man finds the woman and she gives the magic pot back to the man. The genie tells the man he must share his food, so he organises a feast for the village.
