

How I use a computer: Read, drag and drop

I use a computer at school, at home and at the club.

At school, I use a computer to do projects, to learn English, to find out about things on the Internet and to learn English. At home, I use a computer to watch DVDs, to do homework and also to write emails. When I am at the club I use the computer to watch music videos, to write articles for the magazine, to look at photos and to play online games from time to time.

At school	At the club	At home

To watch music videos
To find out about things on the internet
To write e-mails
To play online games
To write stories
To learn English
To do projects
To write articles for the magazine
To look at photos
To watch DVDs
To do homework
