Work out the rule: Making comparisons

1- Look at the following diagram. Which building is the **tallest**? Which building is **shorter** than the CN Tower?

*Example 1: The Burj Khalifa is **the** tall**est** building in the world*

*Example 2: The Willis Tower is short**er** **than** the CN*

- Complete the rules and examples
- When we compare two things, we add "_____" to one-syllable adjectives and the word "_____" after the adjective.
  Example: wider, _____
- Note that adjectives ending in "y", replace the "y" for "i" and add "er".
  Example: noisy – noisier, easy - _____
- Adjectives ending in consonant + vowel+ consonant, double the last consonant.
  For example: Big - Bigger

- Superlative adjectives take "_____" at the end. *Example:* widest, _____
- Place "the" before the adjective.

Applying the rule

1- Use the information from the chart to compare the tallest towers in the world:

Building	City	Year	Height	Stories
1-Burj Khalifa	Dubai	2010	828m.	160
2-Taipei 101	Taipei	2004	508m.	101
3-World Financial Center	Shangai	2008	492m.	101
4-Petronas Tower	Kuala Lampur	1998	252m.	88

1- Example: Taipei 101 is taller than the Petronas Tower.

2- _____

3- _____

4- _____

5- _____

6- _____
