

Efetue as divisões:

DIVIDA PELO NÚMERO NO CENTRO

The first row contains three circular division problems. Each problem consists of a large outer circle and a smaller inner circle. The center of each inner circle contains a number. The outer circle is divided into 10 equal sectors. The numbers in the sectors are as follows:

- Problem 1: Center 10. Outer sectors: 5, 50, 30, 70, 90, 110, 60, 40, 4.
- Problem 2: Center 3. Outer sectors: 6, 24, 9, 27, 36, 2, 24, 3.
- Problem 3: Center 7. Outer sectors: 12, 84, 35, 49, 21, 28, 70, 11.

DIVIDA PELO NÚMERO NO CENTRO

The second row contains three circular division problems. Each problem consists of a large outer circle and a smaller inner circle. The center of each inner circle contains a number. The outer circle is divided into 10 equal sectors. The numbers in the sectors are as follows:

- Problem 4: Center 11. Outer sectors: 4, 22, 10, 44, 110, 33, 121, 99, 55, 88.
- Problem 5: Center 6. Outer sectors: 8, 24, 48, 36, 48, 6, 6, 42, 72, 36, 7.
- Problem 6: Center 2. Outer sectors: 2, 18, 4, 10, 20, 24, 12, 14, 22.
