

MAIN IDEA MATCH UP

Drag and drop the Main Idea to the paragraph it belongs with.

The weather helps us know what to wear, and do, and grow. It brings rain, wind, and sun. Look out your window at the sky. Is it sunny or cloudy? Is it rainy or windy? Weather is what it's like outside in one place.

What is the main idea of this paragraph?

A whale is an ocean animal. They have long bodies and are some of the biggest animals in the world. Whales live in the oceans in groups called pods. They breath air through a hole on their head called a blowhole. Most whales live for 40 to 85 years.

What is the main idea of this paragraph?

Whales

The weather

Butterflies begin their life as a caterpillar. They chew out of the egg and then look for leaves to eat. Soon the caterpillar will build a shell around itself called a chrysalis. It spends three weeks inside and then out crawls a beautiful butterfly that rests in the sunshine before flying away.

What is the main idea of this paragraph?

Drip! Drop! Down comes the rain! Droplets of water form in clouds and can fall to the ground as rain. Rain falls in warm and cool weather. Rain helps animals live and plants grow. It fills rivers and lakes. Rain makes puddles on the ground. Splash!

What is the main idea of this paragraph?

Butterflies

Rain
