**TV ADS**

BY SARAH STEVENS

I was watching TV the other night, and – as usual – there were all those irritating advertisements in the middle of the movie, disturbing my concentration! Well, I don't usually take any notice of the ads. In fact, I almost always turn the volume down when they're on, because they're so boring. But this time I'm not really sure what happened to me. One ad caught my attention. It was for a smartphone, and I was actually thinking of getting one at the time. So anyway, I decided to go for it, and I ordered one. The advertisement made it sound so wonderful! Well, it arrived a few days later. It was super fast, and at first I was impressed. However, I really regret it now. I'm not at all happy with it, and I'm sure it's broken. For example, I texted a friend yesterday, and the message went to the wrong person! That's terrible – and it could be very embarrassing too. Another thing is, the battery doesn't last for very long. I charged it a few hours ago, but it's almost dead again already. It's very disappointing and I hope they give me my money back.
