

## Multiplicar Enteros (A)

Emplee una estrategia de enteros para encontrar cada respuesta.

$8 \times 1 = \boxed{\phantom{000}}$

$2 \times (-1) = \boxed{\phantom{000}}$

$(-1) \times (-8) = \boxed{\phantom{000}}$

$(-2) \times (-4) = \boxed{\phantom{000}}$

$(-3) \times 9 = \boxed{\phantom{000}}$

$(-4) \times 8 = \boxed{\phantom{000}}$

$(-6) \times 11 = \boxed{\phantom{000}}$

$6 \times (-10) = \boxed{\phantom{000}}$

$(-11) \times 8 = \boxed{\phantom{000}}$

$5 \times 10 = \boxed{\phantom{000}}$

$1 \times (-10) = \boxed{\phantom{000}}$

$(-2) \times 5 = \boxed{\phantom{000}}$

$5 \times 8 = \boxed{\phantom{000}}$

$3 \times 11 = \boxed{\phantom{000}}$

$7 \times 4 = \boxed{\phantom{000}}$
