

1. Draw an arrow to match the pictures with the following words:

fertilisation

germination

pollination

seed

and

fruit

2. Fill in the blanks with the correct Word from the box.

pollen

ovule

Germination

pollinators

embryo

seed

pistil

- \_\_\_\_\_ is the development of the embryo to form a new plant.
- Pollination is the arrival of \_\_\_\_\_ from the stamen of one flower to the \_\_\_\_\_ of another flower of the same type.
- The fertilized ovule forms an \_\_\_\_\_ which develops into a \_\_\_\_\_.
- In order to travel from one flower to another, pollen must be transported by the wind or by \_\_\_\_\_.
