Day 6: Explain/Elaborate - I can **distinguish** weather conditions among different environments such as deserts, grasslands, rain forests, tundra and wetlands. I can **identify** and **describe** weather in a particular place and time.

While navigating through your Nearpod lesson, r**esearch** the weather of the following nature parks. Read to discover what you may find at each park. Read to learn about each of the environments. Record the daily weather data from www.weatherbug.com. **Record** your information below.

Environment	Temperature	Humidity	Air Pressure	Precipitation
Rainforest Monteverde Cloud Forest				
Desert Death Valley National Park				
Tundra Denali National Park				
Grassland Badlands National Park				
Wetland Everglades National Park
