

## PROJECT STAGE ONE

## -----ENVIRONMENT-----

Name: \_\_\_\_\_ Class: \_\_\_\_\_

Date: \_\_\_\_\_

1. Read carefully the phrases in A and write the definition in B.

make up  
and animals  
The environment  
All our surroundings  
including the air,  
is everything around us.  
soil, water, plants,  
the environment.

A

B

ENVIRONMENT

2. Write the 3 main areas where environmental problems take place and complete the words in each space.

3.- Prepare the first part for your final project.

## -----Final Presentation-----

### My Final Project

**Presentation:** Good morning! I'm \_\_\_\_\_, and today I am going to talk about the \_\_\_\_\_. The title of my project is \_\_\_\_\_.

**Introduction:** Biodiversity \_\_\_\_\_ and this is because of contamination. We are killing our planet for our irresponsible actions. We must realize that the \_\_\_\_\_ fragile. Therefore, considering the environment as \_\_\_\_\_. All our \_\_\_\_\_ and it is time to start doing something to preserve our planet.

**Paragraph 1:** The main environmental problems we can observe affect the \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_. Consequently, we have that 9.5 square miles of \_\_\_\_\_. Also, there is the rise in the ocean levels because the \_\_\_\_\_ causes the \_\_\_\_\_ and people add contamination to the water supplies by using \_\_\_\_\_. Moreover, there is the \_\_\_\_\_ which is caused by \_\_\_\_\_ and harmful substances like \_\_\_\_\_; CO2 is the main cause of the \_\_\_\_\_. Likewise, there is \_\_\_\_\_ which is mainly caused by people and some species are \_\_\_\_\_ because of it. Finally, \_\_\_\_\_ is the biggest problem we have to face since it contaminates water, soil, air, plants, animals, and humans.

*Don't forget you're brilliant!!*
