

Aliens. Part 1.

Here you have three aliens. Read what they're telling us and answer.

Which planet do they live in? Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus or Neptune?

Hello! My name's Mel. I'm 8 years old. I live in a rocky planet. I live in the closest planet to the Sun. It's very small.

Where does Mel live?

She lives in _____.

Hi! How are you? I'm Rob. I also live in a rocky planet. It's called the red planet because it's rusty. My friends are rovers.

Where does Rob live?

He lives in _____.

Hi! My name's Coldy. I live in an icy planet. This is the seventh planet of the Solar System. It's tilted (like me!).

Where does Coldy live?

He lives in _____.

Now, let's answer some questions.

- How old is Mel?

Mel is _____ years old.

- Where does Mel live?

She lives in a _____ planet.

- What's the name of the alien from Mars?

His name's _____.

- Why is Mars called "the red planet"?

Because _____.

- Where does Coldy live?

He lives in _____ planet.

- What's the order of Uranus?

Uranus is the _____ planet of the Solar System.
